personal computer to permit the input of necessary  
information to the desk-top personal computer.

(57) Abstract:

COPYRIGHT: (C)2000,JPO

PROBLEM TO BE SOLVED: To easily divert a  
portable small-sized keyboard to a desk-top  
personal computer by adopting a USB connector for  
an interface with a main body.

SOLUTION: Subject keyboard is constituted by  
including a keyboard 2 which is attachable to a  
small-sized portable information terminal 1, a  
USB(Universal Serial Bus) cable 10 for interface  
which is led out of the keyboard 2, and the USB  
connector 3 fitted to the top of the USB cable 10.  
The USB connector 3 with the USB cable 10 is  
inserted into a USB connector 4 provided on the  
main body side of the portable information terminal  
1 and used at portage time while mounted on the  
portable information terminal 1. The USB cable 10  
may be wound and stored in the keyboard 2 when  
the keyboard is mounted on the portable information  
terminal 1. The USB connector 3 with the USB cable  
10 is connected to a USB-mounted desk-top
